## TENSION ALONG MEXI- CAN BORDER LOOSENE

Both American and Mexican Citizens Manifest More Optimistic Feeling Following Receipt of News That Use of Railroad for Supplies is Available to Army Authorities

Douglas, Ariz., March 29.—A more optimistic feeling than has been exhibited since the American punitive expedition crossed the Chihuahua border with orders to kill or capture Villa was apparent on both sides of the border today following receipt of the news that General Carranza had given permission for the passage of food supplies for the United States punitive expedition.

The undercurrent of alarm which has been evident among Americans and Mexicans alike over the possible outcome of the railroad situation apparently has been dissipated.

Mexican Consul Ives announced today that the column of 1,400 cavalry under General Arnulfo Gomez which arrived from Hermosillo is being distributed this week between Colonia Morelos, Nacozari, Cuppas and Montezuma. Twenty wagon loads of food supplies for the Cononia Morelos contingent left Agua Prieta today. Arrivals report that the Gomez column numbered approximately 1,200 men.

General Calles, military governor of Sonora, has caused the dismantling of the wireless plant in Nacozari and Cananea owned by and used for the benefit of the Montezuma Copper and Cananea Consolidated Copper company.

There was no evidence that the companies had violated the censorship or intended to do so, however, the move being purely precautionary.

General Calles received information from Hermosillo today that the Creston-Colorado Mining company had resumed operations at its mine in La Colorado and Minas Prietas. They are working under the same plan as that adopted at Nacozari, all labor and department heads being Mexican citizens and no foreigners in either camps.

General Calles recently issued an order to the company to resume work stating as an alternative that he would operate the mine under state direction. There are 1,400 employees in La Colorado and 600 in Minas Prietas.

The guarantee of absolute safety had been given by General Calles to Americans and other foreign born residents of the state became known today. Arrivals from the south stated that the Sonora government had to assure all company managers that in the event of international complication leading to warfare he would guarantee the lives and personal safety of all the people and would provide a military escort to the border.

He further declared any soldiers or civilians who insulted a foreigner would be executed.

H. W. Loomis, a mining man of Fort Paradise, Ariz., seventy-five miles northeast of Douglas in the Shirehau mountains gave details here today for the formation of home guards of citizens at San Simon, Ariz., Rodeo, N. M., and other small settlements in Eastern Arizona and Western New Mexico.

## THE FIRST SUMMER SPRAYING OF APPLES

Timely Articles by Ashleigh P. Boles, Horticultural Agent

The time for applying the Cluster Bud Spray of apple trees will soon be here. Within the next two or three weeks the buds will be properly separated for the Cluster Bud Spraying. It is practically impossible to control apple scab and spring canker worm without this spray.

A one page circular giving detailed instructions for mixing and applying the Cluster Bud Spray and the approximate date for its application will be sent to all farmers who are now getting the Frisco Department of Development Horticultural circulars, and all others who will send in their names. A similar circular will be sent for each of the later sprayings.

Last year several large orchards were completely defoliated as a result of leaving off the Cluster Bud Spraying. A formula of two gallons of lime-sulphur and 2½ pounds of arsenate of lead paste (or 1½ pounds of dry arsenate of lead powder) to 60 gallons of water has been used for several years in the demonstration work and has been highly satisfactory for the Cluster Bud Spray.

The Department of Development of the Frisco Railroad has been doing demonstration work along its lines for the last three years. This work will be continued along the same lines during 1916. There are several orchard men in the neighborhood of Monett who are handling one acre or more of their apple orchard under the direction of this Department of the railroad. These men are interested in

from spraying, but you will build up your orchard so that it will be possible to make very satisfactory net profits in the years to come.

The names of the orchard men who are handling demonstration plots in the Monett territory are as follows:

Loren Withers, Monett, Mo.  
D. E. Brite, Monett, Mo.  
C. B. Peck, Monett, Mo.  
John Planchon, Monett, Mo.  
Grant Bennett, Monett, Mo.

You are invited to watch the work that is being done in these orchards and form your own conclusions as to the value of up-to-date methods of orcharding in this neighborhood.

## THE B. Y. P. U. GIVES A PARTY

The members of the B. Y. P. U. gave a party in the lecture room of the Baptist church, Wednesday evening, which was one of the most pleasant of their entertainments.

The decorations were pink and white and these colors were also carried out in the lunch of ice cream and cake.

They enjoyed various contests among them being a ribbon cutting contest, matching of Mother Goose rhymes, carrying beans on a knife and gum moulding.

## STOCKHOLDERS OF FRISCO RAILROAD ARE NOW AGREED

B. F. Yoakum, Largest Investor to Hold Out, Said to Have Surrendered to Reorganization Plan Unconditionally

New York, March 29.—Confirmation was obtained this morning from an entirely authoritative and trustworthy source of the announcement that B. F. Yoakum and some other stockholders of the St. Louis & San Francisco Railroad company who had opposed the plan of reorganization had signified their desire to come in under the plan.

The assent of Mr. Yoakum to the plan makes the consent of Frisco security holders practically unanimous. Mr. Yoakum holds 40,000 shares of common stock, it is understood, and his initial payment under the plan will amount to \$300,000. The stock has not yet been deposited, but probably will be before next Monday, when the time for depositing securities expires. Mr. Yoakum did not yield until he had exhausted every means to have the plan changed. He held out longer than any of his associates, and even his opponents, it was said, complimented him on his consistency.
